ENERGY EFFICIENT  
DIGITAL VOLTAGE STABILIZER

All MICROTEK Digital Voltage Stabilizers are based on **SAVE POWER** Technology, and have many Unique Features which enable them to give High Performance, Better Reliability and SAVE Electricity.

**STABILIZER FOR AIR-CONDITIONERS**

MICROTEK has complete Range of Energy Efficient Digital Voltage Stabilizers for Air-conditioners with various working Input Range, suitable for all kinds of Power and Voltage Conditions. All Stabilizers for AC's also have Smart Time Delay Feature, which gives breathing space & stabilizes the power before supplying to the load, hence increases the Life of Appliances.

**STABILIZER FOR MAINS**

MICROTEK has Range of Energy Efficient Digital Voltage Stabilizers for Mains with Capacity, from 3KVA to 5KVA, suitable for all kinds of Power and Voltage Conditions. No need to install separate stabilizers for appliances after installing Microtek Stabilizer in Mains. They have a separate MCB for Bypassing the unit if required.

| MODEL                       | EM4090                        | EM4130    | EM4150    | EM4170                        | EM5130    | EM5170    | MODEL                       | EML3090                    | EML5090                    |
|-----------------------------|-------------------------------|-----------|-----------|-------------------------------|-----------|-----------|-----------------------------|----------------------------|----------------------------|
| Application                 | For 1AC upto 1.5 Ton Capacity |           |           | For 1AC upto 2.0 Ton Capacity |           |           | Application                 | 3KVA* Stabilizer for MAINS | 5KVA* Stabilizer for MAINS |
| Working Input Voltage Range | 90V~300V                      | 130V~300V | 150V~280V | 170V~280V                     | 130V~300V | 170V~270V | Working Input Voltage Range | 90V~300V                   | 90V~300V                   |

\* The Capacity mentioned is based on respective load only. For better performance it is recommended to use the load capacity max. upto 50% of 3KVA and upto 50% of 5KVA model. \* All models have a tolerance of ±5%  
NOTE: Because of a policy of continuous product improvement, the specifications are subject to change without notice.

Koyi Bhi Stabilizer Nahi,  
Sirf Microtek Stabilizer !
