POWER A CHILD'S LIFE.  
RETURN USED BATTERIES.

in association with

When you return a used battery to any of our authorised dealers, we contribute on your behalf, to UNICEF's Child Environment Programme. It would not only empower the lives of the underprivileged children who are in dire need of water, sanitation and hygiene in schools, your contribution would help save our environment as well. Lead, a major component in your car battery, if not handled responsibly, can harm the environment and our health. Return your used car battery and make the world a better place, in more ways than one.
