SECURE THE FUTURE

The New Generation Range of UPS Sinewave Solar are based on DSC (Digital Signal Controller) technology.

- 1** Specially designed Sinewave SOLAR UPS Model for backup for computers.
- 2** Charging from SOLAR PANEL, will cut down your electricity consumption while charging from mains.
- 3** You will get Longer BACKUPS during powercuts, as the UPS will use power from the solar panel also.
- 4** Highly Efficient Transformer, which helps in Fast charging of the battery, and Saves Energy.
- 5** Dual Charging Mode - MAINS Mode & SOLAR Mode. Best for Long Power Cuts / Rural areas.
- 6** Bypass Switch- This additional bypass switch enables you to isolate your UPS from mains, whenever needed.
- 7** Upto 250W Solar Panel for SS1060 Model.
- 8** Upto 500W Solar Panel for SS1625 Model.
